HARMONIC FUZION

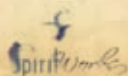

Featuring nationally acclaimed founder **ARJUNA** www.harmonicfuzion.com– He leads a musical offering every Sunday morning at Joshua Tree Mentalphysics. "The theme of ancient sound runs through both his vocal and instrumental artistry. Whether he's toning a

harmonic, droning on the didgeridoo or evolving some integration of both voice and instrument, he appears to walk a sacred path to the regenerative healing power of a forgotten music...Portraying a deep passion and respect for the vibrational quality and power of sound, he explores the relationship between music, community and spiritual expression. His performances are ritual-like, with a sense of sacred space connecting performer and audience." from a Hi-Desert Star article.

Assisting **ARJUNA** will be **THOMAS AND AMARA ALBAN** www.MazAmar.com - Husband and wife spiritual devotees who create beautiful sounds with drums as well as other instruments they make out of clay - including twisted clay didgeridoos! They are inspired by the natural desert and rock formations near Joshua Tree, California.
